

THE ARYSTA LIFESCIENCE PRODUCT PORTFOLIO FOR CEREALS

Our portfolio for the cereals market has expanded, and we now offer a comprehensive lineup of integrated solutions that take you successfully from planting to harvest.

Rancona® Pinnacle seed treatment

The advanced generation seed treatment technology in RANCONA® PINNACLE ensures you're maximizing your seed treatment investment and maximizing your yield potential.

Vitaflow-280 seed treatment

VITAFLO®-280 Fungicide Seed Treatment is one of the most versatile seed treatments on the market. Labelled on 12 crops in Canada, VITAFLO-280 provides control of key yield-robbing seed and seedling diseases, resulting in optimum germination of the seed and reliable stand establishment.

Inferno® Duo herbicide

No burndown product is more ruthless against hard-to-kill broadleaf and flushing grassy weeds in spring wheat.

Everest 2.0 herbicide

A formulation with advanced safener technology built in, EVEREST® 2.0 Herbicide provides an extra measure of crop safety in a wide range of conditions, setting a new standard for use on all spring wheat and durum varieties. EVEREST 2.0 is safe on wheat, but relentless on weeds, giving you **Flush after flush™** control of green foxtail, wild oats and key broadleaf weeds, regardless of conditions.

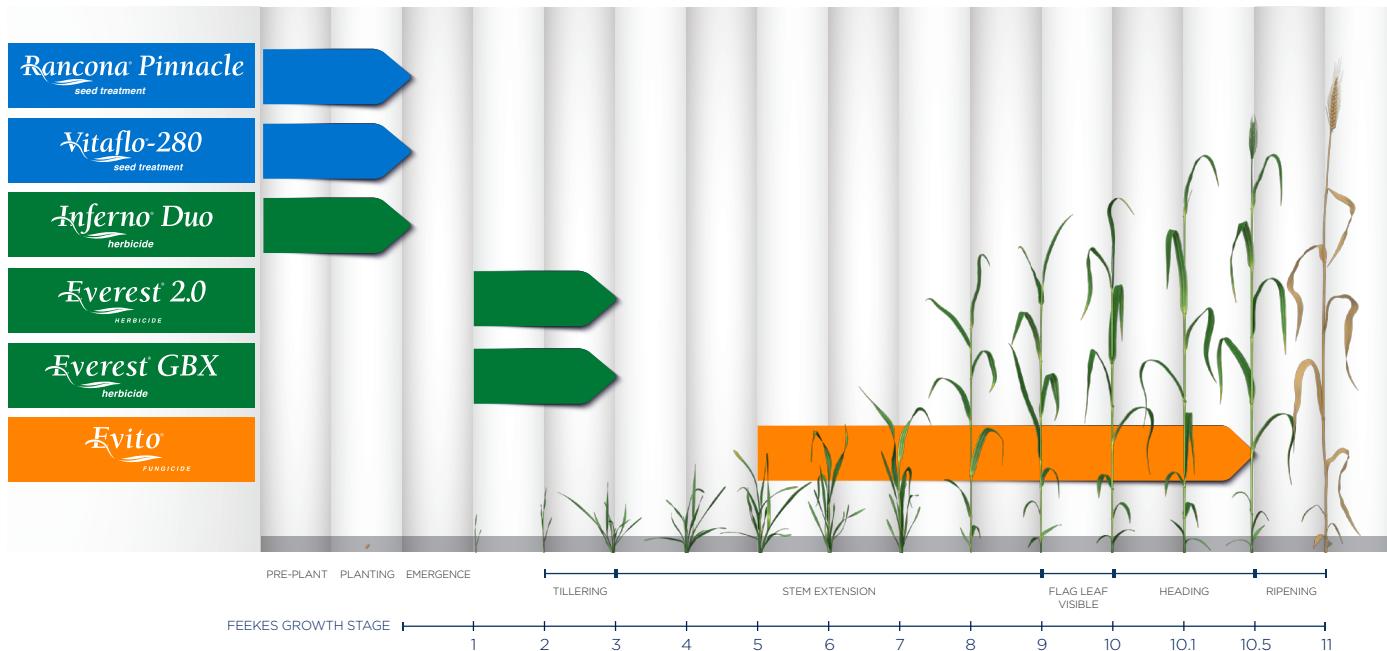

Everest® GBX herbicide

EVEREST® GBX (flucarbazone and fluroxypyr) contains EVEREST 2.0 with its advanced safener technology. EVEREST GBX is safe on wheat, with a wide application window. Nothing is easier to use.

Evito® fungicide

EVITO® Fungicide is an advanced, highly systemic strobilurin fungicide that gets into wheat, barley, corn and soybeans fast and delivers long-lasting and reliable disease protection.
