

Aloft[®] Insecticide

**The ALOFT[®] 2014 Unsurpassed Performance Guarantee:
Performance Proven So Effective, We Guarantee Your Satisfaction**

The ALOFT Insecticide Unsurpassed Performance Guarantee for White Grubs, Surface Feeders*

Arysta LifeScience North America guarantees that ALOFT liquid insecticides will provide full season control of all white grub species, bill bugs and black turfgrass ateniids when applied in a preventive control program. In addition, ALOFT will provide 70-90 day control of chinch bugs, 14-21 day control of black cutworms and 90-day suppression of nuisance ants (except harvester, pharaoh, carpenter and fire ants). If you are not satisfied with the control of any turf insect pests on the ALOFT label following application, Arysta LifeScience will provide you with free product to re-treat the problem area. This guarantee is valid in all states that ALOFT GC SC and ALOFT LC SC are approved for use.

Rates:

ALOFT GC SC and ALOFT LC SC – Apply 11.65 – 14.4 fl oz per acre preventively before the insects reach a stage to start causing turf damage. For subsurface insects, this is no later than the 2nd instar stage. For other insects it is before insects reach turf-damaging levels.

Additionally, for white grub control only, ALOFT GC SC or ALOFT LC SC can be used at rates as low as 8.2 fl oz per acre just before, during or shortly after peak egg lay as outlined in ALOFT 2ee recommendation for white grub control.

For six (6) month control of Red Imported Fire Ants, apply a broadcast application of ALOFT GC SC or ALOFT LC SC at 20.0 fl oz per acre in at least 20 gallons of water when the ants are active. Water in ¼" to ½" to move product into thatch layer and soil profile. If irrigation or rainfall is not expected within 48 hours of application, apply ALOFT in at least 70 gallons of water per acre.

For six (6) month control of Red Imported Fire Ants, apply a broadcast application of Aloft GC G 30LB or Aloft LC G 30LB at 3LBS per 1000sqft (137LBS per acre). Water within 24 hours with ½" of irrigation. Guarantee covers a minimum application of three (3) acres or more.

*For guaranteed control of Annual Bluegrass Weevils, see specific guarantees for those insects.

ALOFT Unsurpassed Performance Guarantee Qualifications:

The ALOFT Unsurpassed Performance Guarantee is limited to that portion of the total ALOFT-treated area claimed to having achieved unsatisfactory performance by the end user as follows:

- If the ALOFT-treated problem area is 5% or less of the total treated area, Arysta LifeScience authorizes a second application at no cost to the end user.
- If the ALOFT-treated problem area exceeds 5% of the total treated area, claim redemption will require a review of the designated area by an authorized Arysta LifeScience distributor in conjunction with an Arysta LifeScience sales representative.
- Guarantee is valid only for claims on those treated areas regarded as not achieving satisfactory performance.

Settlement Claims:

ALOFT Unsurpassed Performance Guarantee settlement claims will be made within these limits:

- Claims must be submitted within 30 days of identifying the problem treated area within the Guarantee timeline.
- ALOFT Unsurpassed Performance Guarantee claim forms must be downloaded at www.totalinsectcontrol.com/guarantee, completed and submitted per claim form instructions.
- Arysta LifeScience reserves the right to review all treatment records or application sites and the right to terminate all eligibility in the ALOFT Guarantee it deems warranted, thereby voiding the Guarantee.
- Reimbursement will be provided in the form of free insecticide product in sufficient amounts to treat problem areas as defined within the terms and conditions of the Guarantee.
- The ALOFT Unsurpassed Performance Guarantee does not cover labor costs or application costs.
- Arysta LifeScience reserves the right to modify or terminate the ALOFT Guarantee at any time.
