Protect your nut crop, and your nut

Achieve complete protection for your tree nut crop with a comprehensive portfolio of products from Arysta LifeScience. They can be used effectively on their own or in rotation as part of a proactive integrated pest management program to keep your crops healthy and your harvest bountiful.

**Elevate**
Steadfast protection against *Monilinia* (brown rot/blossom blight/twig blight) in almonds and *Botrytis* blossom and shoot blight in pistachios and almonds.

**Rh-D**
A consistent performer in broad-spectrum disease control for tree nuts, this powerful product also protects against Botryosphaeria shoot blight in walnuts and Pecan scab.

**Procure**
The industry standard for Eastern filbert blight, this foundational product is less prone to resistance than other DMIs.

**Dimilin**
Apply early for proven protection against pests like peach twig borer in almonds, pecan nut casebearer and codling moth in walnuts.

**Acramite**
A valuable member of any integrated pest management plan, this powerful product has no cross-resistance and is easy on beneficial insects.

**Kanemite**
A short preharvest interval makes KANEMITE® 15SC perfect for quick end-of-season mite control for almonds, pistachios, walnuts and pecans.

**Qmite**
With a strong repellant and unique fuming action, OMITE® is ideal for fast knockdown of a wide range of mites in walnuts and almonds.

**Vigilant**
Applied when mites first appear, VIGILANT® offers powerful long residual control, as well as initial knockdown of all life stages of target mites.
Almonds

- **Dormant**
- **Bloom - Petal Fall**
- **Post Bloom - Nuts Grow and Develop**
- **Shell Hardens**
- **Hull Splits**
- **Harvest**
- **Dormant**

**Blossom Blight**

**Monilinia Hull Rot**

**Peach Twig Borer**

**Apply VIGILANT first, then apply OMITE in hot weather.**

**Alternaria Leaf Spot / Rust**

**Mites**

**Codling Moth**

**Mites***

**Botryosphaeria Shoot Blight**

**Mites***

**Kanemite Miticide**

**OMITE Miticide**

**DIMILIN Insecticide**

**ELEVATE Fungicide**

**KANEMITE Miticide**

**OMITE Miticide**

**PH-D Fungicide**

**VIGILANT Miticide**

*Apply a rotation of VIGILANT and KANEMITE for maximum efficacy.

Pistachios

- **Dormant**
- **Delayed Dormant**
- **Bud Break**
- **Bloom**
- **Fruit Development**
- **Pre-Harvest**
- **Harvest**
- **Post-Harvest**
- **Dormant**
