IT'S MORE THAN A HERBICIDE.  
IT'S AN ELITE WEED-FIGHTING FORCE

INTRODUCING

Batalium™  
herbicide
Growers now have a better and more convenient way to control weeds in spring, durum and winter wheat. New BATALIUM™ Herbicide is driven by a unique, high-performance formulation with three modes of action that provide all-in-one weed control in a single application. With BATALIUM, you’ll get long-lasting control of your toughest grass weeds like wild oats and green foxtail, in addition to dependable, wide-spectrum control of broadleaf weeds like common lambsquarters, wild buckwheat and more.

**FEATURES & BENEFITS**

- Advanced formulation of flucarbazone-sodium, a highly effective Group 2 herbicide, with fluroxypyr (Group 4) and bromoxynil (Group 6)
- Broad-spectrum broadleaf weed control
- Long-lasting control of hard-to-kill grassy weeds
- Best-in-class crop safety
- Compatible with multiple tank-mix partners

**UNMATCHED WEED CONTROL**

**AVERAGE WEED CONTROL 5 WEEKS AFTER APPLICATION**

WEEDS CONTROLLED

GRASSES
- Green foxtail
- Volunteer oat
- Wild oat
- Yellow foxtail
- Japanese brome
- True cheat
- Barnyardgrass
- Downy brome
- Foxtail barley
- Persian darnel
- Rattail fescue

BROADLEAVES¹
- Annual sowthistle
- Bristly starbur
- Buffalobur
- Burcucumber
- Catchweed bedstraw (cleavers) (1-4 whorls)
- Coast fiddleneck
- Cocklebur, common
- Corn gromwell
- Cow cockle
- Field pennycress, field
- Grousel, common
- Hemp sesbania
- Jimsonweed
- Knavel
- Knotweed
- Kochia²
- Lambsquarters, common
- Lanceleaf sage
- London rocket
- Mallow (common, Venice)
- Morning glory (ivyleaf, pitted, tall)

TANK-MIX FLEXIBILITY
Compatible with over 23 registered tank-mix partners, BATALIUM lets you customize your weed management program based on weed pressure and application conditions.

CROP TIMING
Apply from 2-leaf stage up to 60 days prior to harvest. Winter wheat applications can be made in the fall or spring.

WEED TIMING
Make application to control grass weeds 1-4 leaf stage. Make application to control broadleaf weeds up to 4 inches tall.

RATE
BATALIUM has a convenient single use rate of 13.7 fl oz/A.

P Partially controlled for grasses.
1 Up to 4 inches in height; 2-inch rosette. For the states of Idaho, Oregon, Washington, Colorado, Wyoming, and Montana, add bromoxynil to provide 0.125 to 0.25 lb ai/A. Target weed size up to 2 inches in height; 1 inch rosette.
2 Includes herbicide tolerant or resistant. Best control is achieved when weeds are at least 1 inch tall.
3 For best control of sunflower, delay application until emerging seedlings are 4 inches in height.
4 A tank-mix with AUDIT brand herbicides or other herbicides containing tribenuron is required to achieve the level of control listed above.
TANK-MIX FLEXIBILITY

Compatible with over 23 registered tank-mix partners, BATALIUM lets you customize your weed management program based on weed pressure and application conditions.

2,4-D (amine or ester)
- bromoxynil
- carfentrazone-ethyl (Aim® EC)
- chlorosulfuron + metsulfuron-methyl (Finesse®)
- clopyralid (Stinger®)
- clopyralid + 2,4-D (Curtail®)
- clopyralid + fluroxypyr (WideMatch®)
- clopyralid + MCPA (Curtail M)
- dicamba
- fenoxaprop-p-ethyl
- florasulam (Orion®)
- fluroxypyr (Starane® Ultra)

MCPA (amine or ester)
- metsulfuron-methyl (Ally® XP)
- propoxycarbazone-sodium (Olympus®)
- prosulfuron (Peak®)
- pyrasulfotole + bromoxynil (Huskie)
- sulfosulfuron (Outrider®)
- thifensulfuron-methyl (Harmony® SG)
- thifensulfuron-methyl + tribenuron-methyl + metsulfuron-methyl (Ally Extra SG)
- triasulfuron (Amber®)
- tribenuron-methyl (Express®)
- tribenuron-methyl + thifensulfuron-methyl (AUDIT®)

1 For tank-mix partner rate directions follow the label of the tank-mix partner.
2 Do not tank-mix more than an equivalent of 0.25 lb ai/A bromoxynil. Do not cumulatively apply more than 0.50 lb ai/A bromoxynil per year.
3 Do not cumulatively apply more than 0.25 lb ai/A fluroxypyr per year.
4 If BATALIUM Herbicide is applied in a tank-mix combination with a dicamba-containing broadleaf herbicide, grass control will be reduced, except for green foxtail.
