

2019 PILATUS® PERFORMANCE ASSURANCE PROGRAM

PILATUS. PROVIDING A SOLID FOUNDATION FOR A SEASON OF SUCCESS.

PILATUS® is a globally proven proprietary nutrient formulation designed to establish a solid plant foundation, by initiating and continuously promoting the root development of specialty crops. Applying PILATUS increases root development, nutrient uptake and utilization by plants, and results in better overall plant vigor and higher yields.

If PILATUS is applied as outlined below for the specialty crops listed, and your yield improvement does not cover the cost of your PILATUS, Arysta LifeScience will replace the PILATUS you purchased.

PILATUS USE RECOMMENDATIONS FOR SPECIALTY CROPS

CROP	RATE	APPLICATION TIMING AND INFORMATION
Tree Nuts: Almonds, Pistachios, Pecans, and Walnuts	32 oz	Two applications. 1st application at petal fall. 2nd application 30 days after petal fall. Apply through drip irrigation.
Vines: Wine Grapes	16 fl oz	Two applications. 1st application at beginning of flowering. 2nd application at end of flowering. Apply through drip irrigation.
Citrus: Calamondin, Citrus hybrids, Grapefruit, Kumquat, Lemon, Lime, Mandarin, Orange (sour and sweet), Pummelo, Tangerine	16–24 fl oz	One application at pre-bloom/feather growth. Apply through drip irrigation.

THE 2019 PILATUS PERFORMANCE ASSURANCE PROGRAM

We're so confident you'll experience a positive yield response in your tree nuts, wine grapes and tangerines, we're willing to guarantee it. Here's how the **2019 Pilatus Performance Assurance Program** works:

Rules and Conditions:

1. Apply PILATUS at the recommended rates and timing in your specialty crops as outlined in the table above.
2. Leave at least a 5-acre untreated check plot in the same field with the same variety or hybrid and use the same agronomic and irrigation practices in both the treated and untreated area.
3. Treated area and untreated area must be harvested separately and the yield comparisons determined.
4. If the difference in yield between the treated area and the untreated area does not cover the cost of the product, Arysta LifeScience will replace the product you purchased up to the difference in value of product and yield result, not to exceed value of original product purchase. Please contact your local retailer or Arysta LifeScience representative. See Arysta-NA.com/map for your Arysta LifeScience representative.
5. The Arysta LifeScience representative must confirm your yield results to substantiate product replacement.
6. Additional information may be required by your Arysta LifeScience representative for settlement of Program.
7. Only product purchased from an authorized Arysta LifeScience distributor/retailer is eligible for this Program.
8. Arysta LifeScience reserves the right to audit all claims.
9. All settlements are subject to final approval by Arysta LifeScience. Grower must sign a settlement and release document in order to receive replacement. All settlements are subject to final approval by Arysta LifeScience.
10. Arysta LifeScience is in no way responsible for grower's failure to pay the retailer/distributor.
11. Arysta LifeScience reserves the right to modify or terminate the 2019 PILATUS Performance Assurance Program at any time in its sole discretion without prior notice.
12. Program limited to the above listed crops in California.
13. Must comply with the rules and conditions listed and notify the local Arysta LifeScience representative before December 1, 2019, or within 30 days of harvest for the claim to be considered under the Assurance Program.

To find out more about the 2019 PILATUS Performance Assurance Program, talk to your retailer or your Arysta LifeScience representative.
